

# ESCAPE BOX

Our adventure with the #vanlife world has begun in 2015 with renting campervans.

Back then we have realized that the products available on the market do not satisfy us, so we have designed our own first box. With every driven kilometer we have been improving our boxes to make going into the wild easier and more comfortable. You don't need to have a camper anymore to spend a weekend at the lake or travel the world. Our box designed for your car will give you comfort and freedom. Escape Vans was created on the verge of two great passions – for cars and travels.

Our products are created by travelers for travelers.

Discover

# ESCAPE BOX

## FREEDOM

It is you who decides when your car turns into the campervan. At any time, you can easily put in and out every of our boxes. The installation does not require any changes in the car. You just put the box in the car and secure it with transport straps fixed to the original anchor points for the load secure in the car et voilà!

## FUNCTIONALITY

In our projects, we focus on ergonomics, functionality, and the best use of narrow space. Nothing is accidental here. All elements and all the details are deliberate and proven in all conditions. Each box has its purpose and function based on our car travel experience to meet the highest expectations of our clients.

## QUALITY

When creating Escape Vans products, we focus on the highest quality and good design. We use environmentally friendly solutions and materials. With the future of the planet in mind, we use recyclable products wherever possible. When creating electrical and hydraulic solutions, we use products of well-known companies from the world of caravanning.

# LAND BOX

## LAND BOX

This is our newest box which is available in two versions. Standard version is ideal for minivans and perfectly fits family trips out of town or weekend picnics, while the Premium Land Box is dedicated to off-road cars and is supposed to make camping in the wild even comfier.

### SLEEPING AREA

The whole box is placed in the trunk and unfolding the bed takes approximately only one minute. Thanks to the adjustable support legs the box might be used in several types of cars. As in our other boxes, the sleeping surface is extendable to fully use the available space in the car. The mattresses are made of comfortable foam, and their covers are very easy to wash.

### REMOVABLE DRAWER

The Land Box drawer is removable – you can slide it out and put aside. The included set of easily attachable legs allows you to use it as a camping coffee table, a working space, or for cooking in a place not available for cars. What is more, the bottom of Land Box is prepared to hold standard UTZ boxes, so you will not have to remove the box every time you need more space for transport.

# LAND BOX PREMIUM

## COOKING

When you are not cooking, the cooker's windscreen turns into a flat kitchen worktop. For cooking, simply unfold the cover and light the burner powered by a gas cylinder or cartridge. The whole thing can be easily disassembled and washed, and the burner itself, if necessary, can be taken in a backpack for a trip to the mountains.

## FOOD STORAGE AND PREPARATION

A compressor fridge and storage space accessible from above and the front are very convenient for storing food. The sliding top provides additional space for preparing meals and an integrated cutting board contains knives and cutlery for two persons.

## DISHWASHING

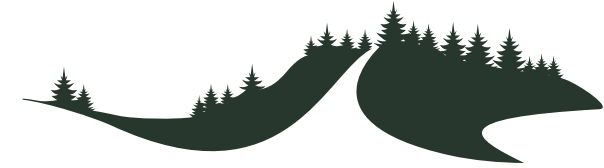

There is a 10 l water tank in the box which you can easily put out for refilling. An electric water pump, a tap with a quick coupler, and a foldable sink facilitate dishwashing even during short stops.

# LAND BOX STANDARD

## STORAGE

A spacious drawer accessible from the front and from above after sliding out. You can also pull it out and use as a coffee table.

## MORE COUNTERTOP SPACE

You can easily create more working space by unfolding the drawer's front.

## CAR COMPATIBILITY

### LAND BOX STANDARD & PREMIUM

Citroën Berlingo  
Opel Combo  
Peugeot Rifter  
Peugeot Partner Tepee  
Toyota PROACE City  
Toyota Land Cruiser 150  
Land Rover Discovery III, IV, V  
VW Caddy  
Ford Tourneo Connect

Find comfort anywhere

## TOUR BOX

## KITCHEN

- Double gas burner stove with 4 cartridges 227g
- DOMETIC CFF 20 fridge/freezer
- Three drawers
- Worktop for food preparation

Cook your favorite meals wherever you are! The powerful double gas burner stove works with easy to buy, replaceable cartridges. Three spacious drawers for food and kitchen utensils and a fridge which you can switch to a freezer mode.

## CLIPBOARD

- Two drawers with two-way slides
- Large storage compartment accessible from above
- Drawer with a foldable sink

Super easy access to your luggage. Thanks to the sliding luggage drawer you don't need to dig the trunk anymore to reach a backpack on the bottom of it all. Stop the van, open the trunk, pull out the drawer and enjoy easy access to your stuff.

## BED

- Quick and easy way to unfold the bed
- Maximum use of space thanks to the extended bed platform

Unfold the bed in less than a minute and sleep wherever you want. To make it possibly comfortable, we designed a surface for sleeping on the whole width of a van. Unfolding the bed requires folding the second row seats and easy installing a platform hidden behind them.

## MATTRESS

- The comfortable foam mattress is split into segments which can be separated or zipped depending on the need
- Zipped covers made of soft to the touch material

Mattresses are made of the Memory foam. Their covers are removable so you can easily take them off and wash. The mattress is divided into segments. If you need a cushion, you can unzip one of the smaller parts.

## POWER

- Standard 12v cigarette lighter plug
- Possible to connect to photovoltaic panels or a 230v power supply

The wheeled mobile water tank allows you to refill water supply even far from your van. While driving use the 12v power supply. Just plug it into the cigarette lighter socket. Wherever it is possible, hook up your van to the electricity to power the fridge, pump and USB QuickCharge charger placed in the back of the layout.

## WATER

- 23 l water tank
- Electric water pump

Clean up and shower even when there is no water nearby! Escape Box is equipped in a 23 litre water tank with an electric pump. You can take a cool shower or clean the dishes even without direct access to a water source. The Box is equipped with a foldable sink and hand shower with an on and off button which will help to save water.

FINISHING OPTIONS

A smart solution

## ECO BOX

## LUGGAGE

- Large storage compartment
- Transport long objects under the bed platform after removal of the second row seats

Take your equipment with you!

Eco Box takes up a little space, leaving plenty of room for luggage and sports equipment.

## SLEEPING

- Quick and easy way to unfold the bed
- Maximum use of space thanks to the extended bed platform
- Comfortable foam mattress with zipped covers made of soft to the touch material

Unfold the bed in less than a minute and sleep wherever you want.

To make it possibly comfortable, we designed the surface for sleeping on the whole width of a van. The mattresses are made of comfortable foam, and their covers are very easy to wash.

## INSTALLATION IN THE CAR

- The box consists of 8 elements that easily fit in the garage after disassembly
- Does not require any modifications in the car

Convert your van into an Escape Van in just 3 minutes.

No tools are required to install the Eco Box. One person and a few minutes is enough. The box is secured with transport straps fixed to the anchor points for the load secure in a van.

## TRAVEL TABLE

- Pop-up table, accessible after opening the rear hatch of the vehicle

Use comfortably during your trip.

If you don't need more space, you can use a smaller table. Just open the hatch, unlock the latches and slide out the top.

## FULL-WIDTH TABLE

- Use the bed platform as an extendable table during the day

Even more space!

Fancy a dinner by the ocean? A bigger table will come in handy! All you need to do is to fasten the top platform at the back of the box.

# ECO BOX +

Equip your Eco Box with a kitchen!

Eco Box can be equipped with an additional kitchen module. It includes a portable gas stove and a removable water tank. Everything will fit into a modular cabinet that can be easily dismantled.

## ECO BOX + includes:

- Camping stove with gas cartridges
- Additional drawer for smaller items
- Easily accessible water tank
