# What's included in individual sets?

**You can choose from Nestbox camping kit in several configurations, so-called sets, according to your preferences and needs. These sets then differ not only in their composition but also in price.**

## **Complete set**

This set consists of a body, water module, cooker module, space intended primarily for the fridge and the bed, which consists of the bed base support, bed base and mattress. The price of one set includes one bed support variant, either universal or basic (as preferred). Cooling solution is not included in the price of the camping kit.

## **Complete set+**

This includes everything as a complete set with the difference that certain camping kits allow use of certain improvements to the sleeping set, labeled as PLUS. This variant refers to an upgrade when the bed uses a bed base with side rails and a mattress with side parts for maximum utilization of the vehicle sleeping width. This will extend your sleeping width by 15 cm on each side. As a rule, this is enabled in the area of the rear door at the second row of seats where the vehicle is wider than in the trunk.

## **Sleeping set**

Is comprised of the main body and bed (bed base support, bed base and mattress). The price of one set includes one bed base support variant, either universal or basic (as preferred). This set does not contain the water module and the cooker module.

## **Sleeping set+**

This is comprised of the body and bed (bed base support, bed base and mattress). This set does not contain the water module and the cooker module. For the bed, a bed base is used with side rails and mattress with side parts for maximum utilization of the vehicle sleeping width. This will extend your sleeping width by 15 cm on each side.

## **Kitchen set**

The set consists of the main body, water module and cooker module and does not contain the bed. The fridge is not included in the price.

# Nestbox diagram

Exact technical specifications and storage space depend on the type of camping kit.

# Nestbox Roamer 2.0 / 550

# accessories

## Camping shovel

Great tool, which finds application in countless outdoor activities, even those you hadn't planned. It can also be attached to your Nestbox.

**45 EUR**  
Prijs Incl. Btw

## Camping axe

This handy axe is an indispensable camping tool. It is specially designed for use in the great outdoors. Its compact size lets you easily carry it in a backpack or on your belt. You can also secure the axe to your Nestbox with a stainless steel bracket.

**69 EUR**  
Prijs Incl. Btw

# Hose for water module

Thanks to the external hose with quick coupler, you can draw water from external sources.

The hose end has a water filter capturing impurities and is suitable for use with foods.

**39 EUR**  
Prijs Incl. Btw

# Water bag with pressure showerhead

The bag was primarily designed as part of the camping kit Nestbox Tramp, but can also be used separately. The 12-liter bag and pressure showerhead are used for basic hygiene, rinsing things or washing camping cookware. The advantage is that you need no electricity to operate and you do not have to hang the shower! Thanks to the pump, the water is under pressure even when placed on the ground or inserted in the body of the kit.

**75 EUR**  
Prijs Incl. Btw

# Fridge

Dometic fridge TCX21, 21L, absorbing, **for Roamer 500**

**219 EUR**

Dometic fridge CDF18, 18L, compressor, **for Roamer 500**

**489 EUR**

Engel fridge MT 17 F, 17L, compressor, **for Supertramp 300**

**825 EUR**

Dometic fridge TCX14, 14L, absorbing, **for Hiker 100**

**199 EUR**

Dometic fridge CFX3 25, 25L, compressor, **for Roamer 2.0 550 / 490 / 450 for Hiker 460**

**749 EUR**  
Prijs Incl. Btw

# Cooling bag

It is expanding the range of accessories to include a comfort feature that keeps your food cool. The bag size is perfectly designed for the well-defined space in Nestbox Camper and Tramp. The necessary bag climate are provided by thermal insulation materials and interior pockets intended for cooling inserts or cooling gel packs. You can store your shopping list in the clear pocket in the bag lid and a pen in the Batyline loop. The volume of up to 25 liters (Camper 20 l and Tramp 25 l) provides enough space for your outdoor activities.

**99 EUR**  
Prijs Incl. Btw
